

ParaData Infographic Copy

11/24/2014

(Concepting idea: Play off the “at your fingertips” analogy. Some ideas: A hand with four fingers outstretched, thumb folded across the palm. Each icon corresponds to a finger on the hand. Or it could be the back of a hand with four fingers pressing a touchscreen that displays each icon and associated text. Or it could be the front of the hand touching a screen from behind and displaying the four icons - Shutterstock has many such images for reference)

(Headline) Still Using Multiple Consumer Loan Management Systems for Different Products?
